

Millcreek Gardens Invites You To Our

FREE!

# Spring

## SEMINAR

March 15, 2018  
9am - 1:30pm

Let us help you prepare for the spring season!  
Join us for a fun and educational day at our growing facilities.

We'll also have tours of our Propagation and Production areas, which will both be in full swing in preparation for the busy season.

Our Propagation department produces more than 500,000 starter plants per year! Our Production team pots over one million plants per year on two automated transplanting lines.

Topics include:

**Herbs in the Garden**  
**Proven Winner Shrubs**  
**Perennials We Dig!**  
**Succulents**

Enjoy an early preview of our 2018 perennial and herb crops!

BREAKFAST AND LUNCH PROVIDED

RSVP: 800-948-1234 or
